## FOREWORD

The North American Trail Ride Conference (NATRC) had its inception in 1961. This organization has played an important part in making competitive trail riding one of the nation's most popular horse activities. Trail rides sanctioned by NATRC have been accomplished from the West Coast to the East Coast; in Alaska and Canada and to the southern borders of the United States.

NATRC has developed a philosophy of competitive trail riding with uniform judging being of paramount importance. Uniformity of rules aids management in conducting rides and makes it easier for judges to evaluate each horse on a more objective basis.

The philosophies of NATRC are:

1. To stimulate greater interest in the breeding and use of good horses possessed of stamina and hardiness and qualified to make good mounts for trail use.
2. To demonstrate the value of type and soundness in the proper selection of horses for competitive riding.
3. To learn and demonstrate the proper methods of training and conditioning horses for competitive riding.
4. To encourage good horsemanship as related to trail riding.
5. To demonstrate the best methods of caring for horses during and after long rides without the aid of artificial methods or stimulants.

NATRC does not discriminate against any animal because of breed, type or conformation as long as the animal performs satisfactorily. Type and conformation will be reflected in the performance of a given animal.

We welcome you to NATRC competitive trail riding. We assure you that participation in this sport and the association with your fellow trail riders will be a rich and satisfying experience. On behalf of the board of directors, I extend our sincere wishes for an enjoyable and successful season of trail riding.

Angie Meroshnekoff  
President, NATRC

At any location designated by the trailmaster, ride chair, or judges as hazardous, riders may be instructed to dismount and proceed on foot for a specified distance.
  5. Two Mile Point
    - a. From a properly identified point (posted sign) approximately 2 miles from the finish each day, riders must maintain forward motion and not stop or dismount from this point to the finish line except in extenuating circumstances dictated by good horsemanship and/or sportsmanship. Forward motion must be via the most direct route, without stopping, following the marked trail. Any deviation may result in penalty assessment or disqualification unless dictated by good horsemanship and/or sportsmanship.

    - b. Time penalty points may be assessed at the rate of one point per minute for an early and/or late arrival. Rider will also be faulted.
  7. Announcement of Time Penalty Points
    - a. Timers must inform ride chair, who must in turn inform riders of any early/late arrivals. Barring unforeseen circumstances, this shall be accomplished within 2 hours of completion of each day's event, but no later than prior to awards presentation.
    - b. Ride chair will then advise the horsemanship judge(s) and veterinary judge(s).
    - c. Veterinary judge(s) will assess time penalty points (See Section 5 J3, 4, 6).
  8. P&R Time
    - a. Normal time at P&R stops shall be included in the total riding time for that day.

## SECTION 6 - JUDGING

- A. Procedures: The judges may act together and discuss individual entrants throughout the course of the ride.
1. Preliminary Exam
    - a. There must be a preliminary examination of all horses before the official start (See Section 5 A2).
    - b. The judges are responsible for determining that the scorecard accurately describes the horse being judged as to: name, age, sex, color, breed, division and class of competition.
    - c. The judges shall identify pertinent marks and blemishes prior to the start of the ride as well as make an evaluation of the horse's soundness.
    - d. Any horse which is obviously lame prior to the start of the ride will not be allowed to start.
    - e. Judges must evaluate the health of each horse. Horses displaying evidence of any infectious disease shall be excused from the ride at the time of check in and asked to leave the area of the ride.
  2. Start of Competition
    - a. For the purposes of scoring trail ability/manners, soundness and horsemanship, the horse and rider shall be considered in competition from the moment that the horse is presented to the judges for preliminary examination.
    - b. For the purposes of scoring condition, the horse shall be considered in competition from the moment the first day's ride officially starts (See Section 5 A2).
  3. Evening Examination: After completion of a day's ride, the horsemanship and veterinary judges will conduct an examination of all entrants.
  4. Morning Examination: Prior to the start of the second and subsequent days of a multi-day ride, there will be an examination of all horses by the veterinary judge. The manner of examination is at the discretion of the judges.

Other parameters to evaluate may include CRI (cardiac recovery index), muscle soreness, muscle cramping, coordination, urine color, respiration character, sweat, salivation, eating and drinking, etc.
    - a. Pre-ride P&R: A pre-ride P&R shall be optional at the discretion of judges and management. This recording will not be scored.
    - b. There will be a minimum of two P&R recovery readings taken during each day's ride. The planned number of P&Rs for the day's ride will be announced by management to riders. Unannounced P&R stops may be added but minimum and maximum ride time must be adjusted.

- (1) This will be scored, unless a recheck is requested.
  - (2) A rider may immediately request a recheck of their horse's outgoing pulse or respiration (or both). If this recheck is requested, it will be taken by a different P&R person or team. Only one recheck shall be permitted. The pulse and/or respiration count from the recheck will apply.
  - e. P&R scoring will be according to the judges committee guidelines.
  - f. If a horse has not met both recovery criteria simultaneously after two 10-minute holds (a total of 30 minutes of recovery time including the initial P&R), the horse shall be pulled.

The evaluation of way of going shall include, but not be limited to, the following: forging, interfering, scalping, over-reaching, continuous stumbling, etc. AAEP guidelines:
    - a. Grade 1: Lameness is difficult to observe and is not consistently apparent, regardless of circumstance (e.g., under saddle, circling, inclines, hard surface, etc.).
    - b. Grade 2: Lameness is difficult to observe at a walk or when trotting in a straight line, but consistently apparent under certain circumstance (e.g., weight carrying, circling, inclines, hard surface, etc.).
    - c. Grade 3: Lameness is consistently observable at a trot under all circumstances.
    - d. Grade 4: Lameness is obvious at a walk.
    - e. Grade 5: Lameness produces minimal weight bearing in motion and/or rest or a complete inability to move.
  3. Trail Ability/Manners 15%: The evaluation of trail ability/manners shall include, but not be limited to, the following: disposition, response to rider, kicking, head tossing, prancing, standing for examination and mounting, buddying up, trail wise, etc.
- C. Horsemanship Judging: Riders are to be evaluated on grooming (of the horse), in-hand presentation, tack & equipment, trail equitation, trail care, trail safety & courtesy, and stabling. These criteria are divided into percentage categories for scoring relative value.
1. 20%:
    - a. Grooming: The evaluation of grooming shall include, but not be limited to, the following: brushing, dirt, sweat marks, foreign matter, external parasites; feet and shoeing.

- D. Penalty Points
1. Time penalty points will be assessed for time violations (See Section 5 J7).
  2. Other penalty points may be assessed by the judges for rule infractions which do not merit disqualification (See Section 6 E).
  3. Ride chair must inform riders and all judges of any penalty points. Barring unforeseen circumstances, this shall be accomplished on the same day, but must be done prior to ride awards presentation.
  4. Horses and riders shall be scored as if no penalty points were accrued. Both types of penalty points shall be added together and then be deducted from the horse's or rider's subtotal score prior to placing.
  5. Faulting the rider's horsemanship for rule infractions is at the judge's discretion.
- E. Disqualification
1. A horse and rider, for the purpose of disqualification, are considered a team. Disqualification of one automatically constitutes the disqualification of the other.
  2. Judges, the trailmaster, or the ride chair have the authority to disqualify competitors for the following reasons:

  3. The rider must be informed by the ride chair of any disqualification action prior to awards. If the disqualification occurs during or following awards, the rider must be notified in writing by the ride chair of the disqualification within seven (7) days of the ride.
- F. Pull Criteria
1. A horse or rider may be pulled from competition for reasons other than those stated for disqualification.
  2. A horse and rider, for the purpose of pulling, are considered a team. The pulling of one automatically constitutes the pulling of the other.
  3. Judges, the trailmaster or the ride chair have the authority to pull a horse or rider for the following reasons:
    - a. The horse or rider exceeds acceptable mechanical, metabolic, or mental parameters.
    - b. Rider option.
    - c. A horse requiring treatment by a veterinarian or rider that prevents comparative evaluation during the course of the competition.

## SECTION 7 - PROHIBITED SUBSTANCES AND TREATMENTS

- A. General Provisions:
1. Purpose: The purpose of this rule against the use of prohibited substances or prohibited treatments in equines during NATRC rides is both to protect the equines from harm and to ensure fair competition. Equines should compete under their natural abilities without the influence of any drug, medication or veterinary treatment.
  2. Prohibited substances or prohibited treatments as defined in this rule shall not be administered to or used in an equine competing in an NATRC ride. No equine in which a prohibited substance or its metabolite is present shall compete, regardless of when the prohibited substance was administered to it.
  3. For the purposes of this rule, competition begins at the time of the initial presentation for the preliminary veterinary exam. Competition ends when an equine has been pulled, disqualified, or has successfully passed the final veterinary exam.
- B. Prohibited Substances: (For the Appendices referred to in this Section, see the NATRC web site.)
1. The products identified in Appendix A to this rule are prohibited substances.
  2. A substance which is not identified by name in B1 above is a prohibited substance if it falls within the categories identified in Appendix B to this rule.
  3. Notwithstanding any other provision of this rule, the products or categories of substances identified in Appendix C to this rule are not prohibited substances.
  4. If a substance is not identifiable as a prohibited substance under B1 or B2 above or is not specifically allowed under B3 above, it is a prohibited substance if it is (a) either an exogenous substance or an endogenous substance administered in abnormal amounts, and is (b) potentially harmful to the equine or is performance enhancing.
  5. NATRC recognizes that trace amounts may be detected of some substances which are commonly used for treating equines and which are considered not to influence horses during competition when present under certain threshold levels. NATRC also recognizes that trace amounts may also be detected of substances which have no legitimate use in equines but which are present at extremely low levels from unintentional and unavoidable exposure to environmental contamination. Accordingly, notwithstanding any other provision of this rule, the following specific substances only are not prohibited substances if detected in concentrations below the threshold amount corresponding to the substance in the table shown in Appendix D to this rule.
  6. General guidelines for the length of time selected substances remain in an equine's system are set out in Appendix E to this rule. These detection time guidelines are advisory only and are not a part of this rule governing prohibited substances. The detection time for a prohibited substance varies with the size and health of the equine, the method of administration, dosage, the testing method and the detection limits used by the testing laboratory, among other factors. Accordingly, these detection time guidelines shall not affect the determination of whether or not there has been a violation of this rule. Reliance on these detection time guidelines does not guarantee compliance with this rule.
- C. Prohibited Treatments:
1. The treatments or procedures identified in Appendix F to this rule are prohibited treatments if administered to an equine while in competition.
  2. Prohibited treatments while an equine is in competition shall also include any diagnostic procedures involving the use of a needle, syringe or other device or instrument except for a stethoscope, heart rate monitor, rectal or skin temperature thermometer, or syringe for the oral administration of permitted substances. Drawing blood or measuring blood parameters by any means including, but not limited to, transdermal methods from an equine while it is competing is a prohibited treatment unless it is done for diagnostic or research purposes and access to results or other information from measuring blood

- parameters is withheld from the equine's rider and/or owner from the time the ride starts until after the equine has finished competing in the ride. The intention to draw blood or measure blood parameters by any means from an equine for diagnostic or research purposes must be declared in writing to the ride management and veterinary judge at the time of the equine's preliminary veterinary examination so that there is no misinterpretation during competition of the purpose for using the needle and syringe necessary for drawing blood or instruments needed to measure blood parameters.
3. The following veterinary procedures are considered prohibited treatments even if performed prior to time the treated equine is competing:
    - a. Shockwave therapy is a prohibited treatment unless performed more than seven (7) days prior to the time the treated equine is competing.
    - b. Surgical or chemical neurectomy, whenever it is performed, is a prohibited treatment. No equine which has been the subject of a neurectomy at any time shall compete.
  4. Notwithstanding any other provision of this rule, the treatments or procedures identified in Appendix G to this rule are not prohibited treatments even if administered to an equine while in competition.
- D. Revision of Appendices: The appendices will be periodically updated by NATRC.
- E. Violations and Enforcement Procedures:
1. Any rider/owner violating these rules at an NATRC ride shall forfeit any completion or placing for the ride. NATRC may impose additional penalties for violation of these rules on any person responsible for the violation. Normally, the rider and owner shall be considered the persons responsible for the custody and care at a ride. Accordingly, the rider and owner shall avoid liability for additional penalties for violation of this rule only by showing by clear and convincing evidence that:
    - a. some other person outside of the rider or owner's control was responsible for the violation, and,
    - b. the rider or owner bore no fault for the violation.
  2. Every rider or other person in control of an equine at an NATRC ride shall upon request by an NATRC approved veterinarian or governmental testing representative permit a specimen of urine, saliva, blood or other substance to be collected from the equine for testing. Refusing to allow or cooperate with testing for prohibited substances at a ride shall be considered to be the same as the administration or use of a prohibited substance and shall be grounds for immediate disqualification from the event as well as the imposition of additional penalties by NATRC.
  3. NATRC shall with the advice of the veterinary drug committee establish and publish procedures for the testing for prohibited substances.
    - a. Upon receipt by the veterinary drug committee of a laboratory report showing the presence of a substance which may be a prohibited substance under this rule, the veterinary drug committee shall investigate and determine if there is a violation.
    - b. The veterinary drug committee will submit the report and all pertinent information regarding the results to the executive director.
    - c. The executive director will then submit the report of the veterinary drug committee to the protest committee. The chair of the veterinary drug committee will be a member of that protest committee.

## SECTION 8 - COMPLAINTS, PROTESTS, AND DRUG VIOLATIONS

- A. Informal Concerns, Inquiries, and/or Suggestions
  1. Most concerns, inquiries, and/or suggestions are questions of a general nature and are most appropriately directed to ride management, judges, regional board members or the NATRC Executive Director. They should be handled diplomatically and informatively on a case by case basis. This can usually be done at the ride where a question arises and without triggering a "formal process".
  2. Concerns, inquiries, and/or suggestions that cannot be answered satisfactorily in this manner may be referred to the executive director for possible referral to the appropriate NATRC committee.
- B. Letters of Concern
  1. Letters of concern addressing issues, other than those which are appropriately handled as either complaints or protest per Section 8, may be submitted by any member, competitor, judge, ride management or ride official.
  2. A letter of concern must be in writing, signed by the author, and mailed to the executive director.
  3. The executive director shall inform the involved parties. These individuals may reply to the executive director within twenty-one (21) days with any information that they deem relevant regarding the concern.
  4. The executive director will then forward the information received to the chair of the committee he/she deems most appropriate to receive the letter of concern. Copies shall be sent to the president. The committee to which the letter of concern has been referred shall render a written conclusion in a timely manner and forward that conclusion to the executive director. The executive director, or the committee chair as assigned by the executive director, shall then notify all affected parties of that conclusion. A copy of the notification will be sent to the executive director.
- C. Complaints
  1. Complaints not involving a formal protest may be made by any competitor, their agent, or parent of a junior competitor against the operation of the ride, misconduct of the ride committees, committee members, competitors, judges, other officers or agents of a ride.
  2. A complaint must be in writing, signed by the complainant and mailed (postmarked) to the executive director not later than ten (10) days following the conclusion of the ride.
  3. The executive director shall send a copy of the complaint to the ride personnel involved. The ride personnel will have twenty-one (21) days in which to reply to the executive director who shall forward the information received to the chair of the committee he/she deems most appropriate to receive the complaint. Copies shall be sent to the president and the chair of the sanction committee. The committee to which the complaint has been referred shall have fourteen (14) days to render a written judgment on the complaint and forward it to the executive director, who shall thereupon use this written judgment and promptly notify all affected parties and all persons receiving copies of the complaint as set forth above.
